Spokane Housing Authority Is Relocating to 25 West Nora

(Spokane, WA – July 1, 2020) – Spokane Housing Authority, an organization that helps people in six Eastern Washington counties secure affordable housing, will be moving to their new location the week of July 6th, 2020. This new location, at 25 W. Nora Avenue, is just two blocks north of their current office.

The Nora location will maintain easy access to bus stops and has been designed to provide better customer service to provide critical housing needs to the community. The building features accessibility, safety, and communication upgrades, as well as open public meeting spaces.

New services have been implemented such as a new incoming call routing system and a virtual lobby for customer service, which were streamlined in response to Governor Inslee’s ‘Stay Home, Stay Healthy’ proclamation. The virtual lobby will continue to be in place until Spokane Housing Authority can open their new lobby to the public, and is available through a link on their website at www.spokanehousing.org.

Funds used for the purchase of the administrative building included agency general funds and a private placement tax-exempt bond issued by the Spokane Housing Authority on July 31, 2018 to Banner Bank. The move of Spokane Housing Authority’s administrative office will require that staff are not available from July 4, 2020 until July 15, 2020.
